

Active Portfolio Range

Helping you to achieve peace of mind, grow your nest egg and reach your goals. This is a multi-asset investment solution that is managed professionally and has a clearly-defined goal. Our aim is aligned to yours — to grow your wealth sensibly — investing when, and where, it makes sense to do so.

We've partnered with your adviser to help you to achieve your goals, such as:

- ▶ Saving for retirement
- ▶ Achieving financial security
- ▶ Building an inheritance for your family
- ▶ Buying/upgrading a house
- ▶ Improving your quality of life

Why invest in the portfolio?

Grow your wealth — An active portfolio aims to select best-in-breed managers whose goal is to beat the index or market.

Active Management — A portfolio that is actively positioned for changing market conditions.

Risk Aware — Protect your nest egg by investing in a diversified portfolio that has controls for risk

How are the portfolios managed?

We invest your money with the following in mind:

Value

The potential for return is greater and loss is lower if you purchase investments that are currently overlooked or underappreciated by other investors...

Capital Preservation

Our goal is to not invest in assets if the reward isn't worth the risk. In other words, we're happy to hold higher than normal levels of cash instead of investing in overvalued assets.

Quality

...but it's not just about value. We focus on buying quality investments at attractive prices. We do this by undertaking comprehensive research to understand the fundamental drivers behind each opportunity.

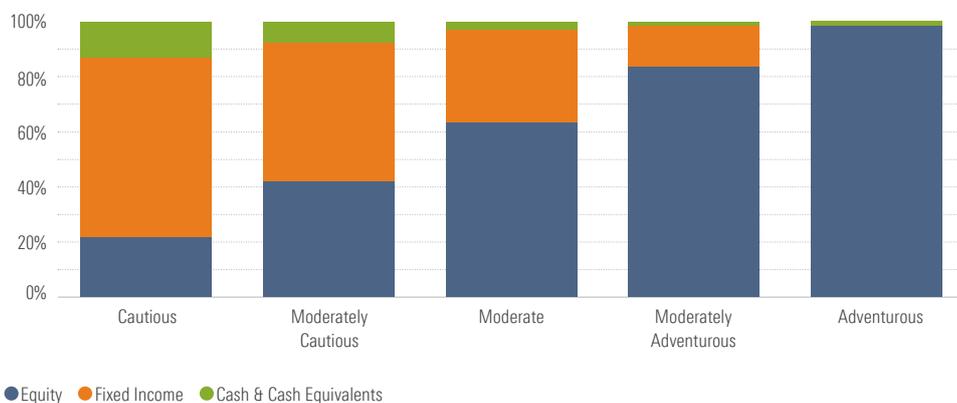

True Diversification

You're less exposed to the risks of investing when your money is spread across a mix of different underlying investments (like shares, property, bonds and cash) that complement each other. In other words, simply holding more of the same/similar thing isn't the same as true diversification.

What are you invested in?

You will be invested in active funds we regard as offering a positive trade off between fees and return. We also focus on low-cost funds we regard to be in your best interests.

The portfolio invests across a range of asset underlying classes such as equities, fixed interest and cash — when and where it makes sense to do so.

This chart shows the portfolio's broad asset class ranges and investment allocation at 30th September 2021.

Who is Morningstar Investment Management?

Morningstar was founded by Joe Mansueto in 1984 and today is a billion-dollar company with more than 6,000 employees and offices in 27 countries. For over 37 years we have been a leading provider of asset allocation, portfolio construction and investment research services, managing and advising on billions of pounds globally.

Apart from building portfolios for investors like you, we also provide manager selection, asset allocation and model portfolio solutions for some of the world's largest financial institutions.

Global investment management, local expertise.

Bigger is not always better, but it certainly helps. With a large team in London, as well as offices in the other major financial cities globally, our investment professionals share an international perspective that is informed by local market knowledge. The team are also guided by a consistent set of global investment principles, creating accountability to ensure our solutions meet their goals.

The UK team includes experienced investment managers, dedicated asset class specialists and an in-house investment operations team, fostering cohesive and agile decision-making.

These Portfolios are for UK Investors with the following objectives and characteristics:

- ✓ **Capital Growth**—the portfolios are designed to be held for at least 3 years rising to 10 at the higher investment risk end of the range. They are suitable for people seeking to maximise the potential reward for a given level of risk.
- ✓ **Sound risk management**—the portfolios are built for your risk tolerance, where we define risk the same way you do; “a permanent loss of capital that can't be recovered in the investor's timeframe”.
- ✓ **Knowledge and Experience**—the portfolios are suitable for all retail investors from those with basic knowledge up to advanced investors.
- ✓ **Cost efficiency**—we are committed to keeping fees low to help ensure you take home your share of the profits.

What you need to consider:

It is important to note that investments in securities involve risk and will not always be profitable. Morningstar Investment Management Europe Limited does not guarantee that the results of its investment decisions or the objectives of the portfolio will be achieved.

Morningstar Investment Management Europe Limited does not guarantee that negative returns can or will be avoided in any of its portfolios. An investment made in a security may differ substantially from its historical performance and as a result, portfolios may incur a loss. Past performance is not a guide to future returns. The value of investments may go down as well as up and investors may not get back the amount invested.
